RESPONSIBILITIES

24/7 ONSITE SECURITY

- Logging in and out each truck that passes your gate (or as specified) on our App
- Observing and reporting all potential hazards, unauthorized personnel, etc. to Operations.

Please note: Each client, industry, and region may effect different protocols and procedures.

Though each gate varies, many of our guards often enjoy a variety of hobbies and other money making ventures while gate guarding!

Some even consider it a paid vacation in comparison to other Workamping gigs!
